

S.No.	Make	Model	Specs	Image
1	Nearity	V30s	AI-powered 4K UHD video conferencing bar with 8MP Sony sensor, ultra-wide 120° field of view, 3x/5x digital zoom, intelligent auto-framing, speaker tracking, dual MEMS microphones with AI noise suppression, full-duplex audio, built-in high-clarity speaker, USB plug-and-play connectivity for huddle and small meeting rooms.	
2	Nearity	C30R	4K UHD all-in-one conferencing bar featuring an 8MP Sony 1/2.8" CMOS sensor, 120° ultra-wide lens, 6x digital zoom, AI auto-framing and speaker tracking, 5-MEMS microphone array with 5m voice pickup, beamforming, echo cancellation, AI noise reduction, full-duplex audio, integrated 5W speaker, USB-C connectivity, and daisy-chain support for additional speakerphones.	
3	Nearity	B10	Nearity B10 Conference Touch Controller provides convenient access to all Nearity video conferencing solutions. It features a 10.1-inch touchscreen, Kensington lock holes, and a Power over Ethernet (POE) power supply, making it an ideal choice for controlling meetings and using it as a check-in board.	
4	Nearity	C45	Intelligent dual-lens AI conference camera system with 4K video output, auto-framing, presenter/speaker tracking, wide-angle room coverage, integrated microphone array, AI audio enhancement, and enterprise-grade USB conferencing support for medium meeting rooms.	

5	Nearity	C50
6	Nearity	360Alien

Premium AI video collaboration bar with dual 4K cameras, intelligent speaker tracking, auto-framing, beamforming microphones, enhanced noise cancellation, high-fidelity speaker system, and optimized performance for medium to large conference rooms.

360° panoramic conference camera with full-room video coverage, AI voice tracking, omnidirectional microphone pickup, integrated speaker system, compact tabletop design, and real-time participant framing for small collaboration spaces.

7	Nearity	120 Max	<p>Ultra-wide conference camera featuring 120° field of view, Full HD/4K video quality, AI framing technology, integrated microphones with noise suppression, USB plug-and-play connectivity, and compact deployment for huddle rooms and small meeting spaces.</p>	
8	Nearity	V410	<p>Professional PTZ conference camera with Full HD/4K output, optical zoom capability, smooth pan-tilt control, AI tracking, low-light optimization, and USB/HDMI connectivity designed for medium conference environments.</p>	
9	Nearity	V415	<p>Advanced AI PTZ conferencing camera with enhanced speaker tracking, high-quality optical zoom, intelligent auto-framing, superior low-light performance, and professional integration support for corporate meeting rooms.</p>	

10	Nearity	V520D
11	Nearity	V540D

Dual-lens AI tracking conference camera featuring intelligent presenter tracking, auto-framing, wide room coverage, high-resolution video output, AI participant recognition, and enterprise conferencing compatibility for medium to large spaces.

High-end dual-camera PTZ conferencing solution with advanced AI speaker tracking, powerful optical zoom, intelligent framing algorithms, ultra-clear video performance, enhanced audio integration, and optimized deployment for large boardrooms and training rooms.
